

IGE+XAO becomes a "Unity"-certified partner of the CAPP Program (Collaborative Automation Partner Program) of Schneider Electric

Toulouse, January 24th, 2005 – **IGE+XAO** announces that its SEE Electrical Expert software has met all the certification tests required by the Schneider Electric Unity partnership.

The Unity partnership is part of the CAPP initiative (Collaborative Automation Partner Program), whose objective is to maximize the productivity of Schneider Electric customers. Members of this program are companies which have demonstrated the interoperability of their products with the Schneider Unity platform.

The partnership with Schneider Electric offers a total compatibility between the electrical diagrams created with **SEE Electrical Expert** and the Schneider Electric PLCs. Thus:

- Input/Output cards layouts can be automatically generated and updated.
- Electrical diagrams output data can be fed back into Unity Pro.

This compatibility provides end users with shorten product development cycles and reduced errors.

ABOUT IGE+XAO:

For over 18 years, the **IGE+XAO Group** has been a software editor designing, producing, selling and ensuring the maintenance of a range of Computer-Aided Design software (called "CAD"). These CAD software products have been designed to help manufacturers design and maintain the electrical part of any installation. This type of CAD is called "Electrical CAD". **IGE+XAO** has built a complete range of Electrical CAD software designed for all the industry fields. **IGE+XAO** products may either run on a stand-alone computer or be deployed on a network. **IGE+XAO** has 300 employees spread out in 19 locations and 11 countries. With more than 40 000 licenses sold throughout the world, **IGE+XAO** is a reference in its domain. For more information, visit <http://www.ige-xao.com>
