

PRESS RELEASE

The IGE+XAO Group launches two new Electrical CAD software packages targeting capital goods, automation and construction markets.

Toulouse, April 29th 2009 – The **IGE+XAO Group** broadens its Computer-Aided Design (CAD) software range dedicated to Electrical Engineering with the launch of two new products. The first package, SEE Electrical, targets cabling for capital goods and automation industries, the second, SEE Electrical Building, targets the Construction market.

SEE Electrical covers all the requirements in Electrical CAD for small and medium companies in the capital goods and automation markets. Available in three versions, "Basic", "Standard" and "Advanced", SEE Electrical can evolve with customer requirements on one hand, and on the other address companies investment capacity.

Targeting the Construction market, and more precisely electrical installers, SEE Electrical Building allows the generation of all the documentation for an electrical project from a component list. SEE Electrical Building manages all the project steps: the creation or import of building plans, the insertion of electrical equipment as well as the component choice, design of electrical cabinets, hence the automatic generation of electrical schematics as well as part lists. SEE Electrical Building can also be connected to SEE Calculation, the Group software package for the dimensioning of electrical installations according to NFC-15100 standard.

These two packages will be sold through the business model SEE Freedom, an « all-inclusive » service offer comprising of the access to the software, training (initial and update trainings), hotline, as well as all the minor and major releases.

“These two new packages, associated to the SEE Freedom business model, perfectly answer our customer functional requirements as well as their budget constraints which are particularly critical at the present time” declared Alain Di Crescenzo, Chairman and CEO of the IGE+XAO Group.

ABOUT THE IGE+XAO GROUP:

For over 22 years, the **IGE+XAO Group** has been a software publisher designing, producing, selling and ensuring the maintenance of a range of Computer-Aided Design (CAD) software. These Electrical CAD software applications have been designed to help manufacturers design and maintain the electrical section of any installation. **IGE+XAO** has built a complete range of Electrical CAD software applications designed for all industry fields. The **IGE+XAO Group** has over 350 employees spread out in 22 locations and 15 countries. With more than 56,000 licenses sold throughout the world, **IGE+XAO** is a reference in its domain.
