SPM	2005	GENERAL	Windows XP	10/05/2005	Quality	Technical	EN
			E.	hia at t		Support	
			DENT TNDEX OF TH	E PROJECT FROM		PERT	
			Our propo	osed solution:			
Principle :							
It is possible to re	trieve the current index	of the project See XP in S	SPM by creating a new sec	tion in the database of	SPM.		
Operational mode	:						
1. In your folder \.	.\SPM_Applications\ECL	SEE_VAULT\Database,	add the lines visible in the	lower part [AFF\REV]	ISION] in your file DES	C_AFF.INI	
2. In SPM, select t	he menu File\Database\	Definition of project attri	butes walue (Indiae Day for th	- novinion index of CEP	-		
3. CIICK ON THE DUIT 4. Denew the opera	tion for the other section	section Eliquette, select o	I value (Indice_Rev for The	e revision index of SEC	-)		
5. Click on <b>"Modify</b>	Structure" before "Clo	se" the window !					
Conclusion:		المستعم المالية والمناقبة والمراجع	· · · · · · · · · · · · · · · · ·				
During the next ru Vou can afterward:	nning of CHECK IN, the ( s create an "Index View"	in SPM which uses these	new sections				
Important :							
Lines to be added a	at the end of your file SI	PM_Applications\ECL_SEE	_VAULT\Database\DESC	_AFF.INI
